EDUCATION

Vellore Institute of Technology

Expected July 2026

Bachelor of Technology in Computer Science and Engineering

Cumulative GPA: 8.53 / 10

SKILLS

Solution Consulting & Pre-Sales

Requirement gathering, problem discovery, solution mapping

Customer & Stakeholder Management

Client communication, expectation management, relationship building

Analytical & Structured Thinking

Logical problem solving, data interpretation, process understanding

Collaboration & Execution

Cross-functional collaboration, documentation, ownership

Tools & Professional Exposure

CRM concepts, SaaS platforms, Google Docs/Sheets/Slides

PROJECTS

Phishing Website Detection

Technologies: Python, Scikit-learn, Pandas, NumPy, BeautifulSoup, Regex

Developed a machine learning-based phishing detection system by extracting and analyzing 30+ URL, network, and HTML features across 100+ live websites. Achieved 96.4% detection accuracy and reduced false positives by 15% through feature engineering and model optimization.

Network Vulnerability Assessment

Technologies: OWASP ZAP, Burp Suite, Wireshark, Nmap, Kali Linux

Conducted structured vulnerability assessments across 8+ systems using automated scanning and manual verification. Analyzed 50+ network packets to identify misconfigurations and attack vectors, and designed an OWASP Top 10-aligned remediation roadmap using CVSS 3.1 scoring.

CERTIFICATIONS & TRAINING

IBM Cybersecurity Analyst | Cisco Cybersecurity Analyst | IBM Generative AI Essentials | Google Project Management | Google Professional Cybersecurity Certificate

ACTIVITIES & LEADERSHIP
