PROJECTS

Phishing Website Detection

Academic Project

- Studied common phishing techniques and analyzed how malicious websites attempt to deceive users.
- Implemented a basic detection approach and evaluated how it could help users identify unsafe websites.
- Gained experience in explaining a technical solution in a way that is understandable to non-technical audiences.

ACTIVITIES & LEADERSHIP

Model United Nations (MUN Club) — Treasurer, VIT Bhopal

Oct 2023 – May 2025

- Managed end-to-end budgeting and financial execution for large-scale events with **500+ participants**, ensuring transparency, accuracy, and smooth participant experience.
- Supported planning and execution of multi-day events by coordinating with internal teams, sponsors, and external partners, similar to managing multiple customer stakeholders.
- Led sponsorship outreach, follow-ups, and partner coordination, strengthening skills in requirement understanding, value communication, and expectation management.

iOS Club — PR Team Lead, VIT Bhopal

Aug 2024 – May 2025

- Led digital communication and outreach strategies for flagship events, resulting in a **60% increase in engagement** across target audiences.
- Created presentation materials and communication content to clearly articulate event value propositions to participants and stakeholders.
- Worked closely with technical, design, and operations teams to align messaging, timelines, and execution, ensuring smooth delivery under tight deadlines.
